FLOW METERS - FMT 3

DIESEL EXHAUST FLUID

Built-in display | Turbine meter | Multi-directional flow | Rotatable

The FMT 3 is the newest generation of turbine electronic flow meters from TECALEMIT. It is everything most meters are missing. With never before seen technology built into the device, the FMT 3 is an industry game-changer.

Description: US253591006 Non-Pulsar Model

Multi-directional flow

Display can rotate in 90° increments

Display can be mounted to fit any viewing angle

Main body can be separated from the main chamber

Turbine meter

AVAILABLE WITH PULSE OUT FEATURE - US253591099 Pulse ratio 100:1

 Earth
Signal output (100:1)

FMT 3 Technical Specifications

Flow rate min./max.	1-30	gpm
Nominal pressure max.	10	bar
External thread	1	in. BSP
Accuracy	±1	%
Battery life (approx.)	5	years
Dimensions (W x H x D)	4.72 x 2.05 x 3.35	in.
Weight	0.53	lbs.
Operating temperature	-13 to +131	°F
Medium temperature	-14 to +104	°F
