

# Model 352 End-of-Line, Open Air Deflagration Flame Arrester

NEW PRODUCT ANNOUNCEMENT

## Application

End-of-Line flame arresters are designed to be installed at the end connection of a tank vent line. The flame arrester provides a protection barrier that deters a flame generated from a source outside of the tank from flashing through the vent into the vapor space of the tank.

## Features and Details

- 304 stainless arrester plates provide long term corrosion resistance and durability
- Easy access for visual inspection and periodic maintenance
- Full 2" and 3" NPT vent line air flow capacity
- Water-resistant cover sheds water away from the vent line

## Materials of Construction

- Base.... 356 tempered aluminum
- Cover... Aluminum
- Arrester plates... 304 stainless steel
- Threaded hardware... 18-8 stainless steel

## Code Compliance

cULus 525–Standard for Flame Arresters–Edition 8
