

FLEXIBLE PIPING IDENTIFICATION CHART

THIS CHART IS PROVIDED AS A REFERENCE FOR IDENTIFYING FLEXIBLE PIPING SYSTEMS THAT THE FLX-SERIES RETROFIT FITTING IS DESIGNED FOR.

APT PIPING

1st Gen. PolyTech

First gen. APT had a light blue polyethylene secondary and a darker blue primary. It is easily identified by its 4-bolt end fitting.

ADHESIVE TO USE FOR THIS PIPE:
"ADHESIVE-PE-KIT"
(REQUIRES "MAN-GUN-FS-10" TO DISPENSE)

2nd Gen. PolyTech XP

Second gen. APT XP has a dark blue "scuff guard", a blue nylon secondary and a light blue/grey primary. It is easily identified by its 2-bolt end fitting.

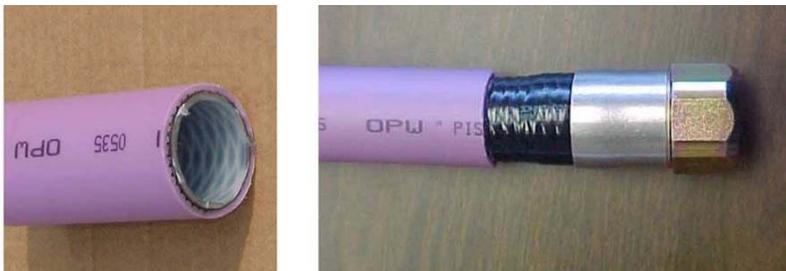

ADHESIVE TO USE FOR THIS PIPE:
"ADHESIVE-NYLON-KIT"

OPW PIPING

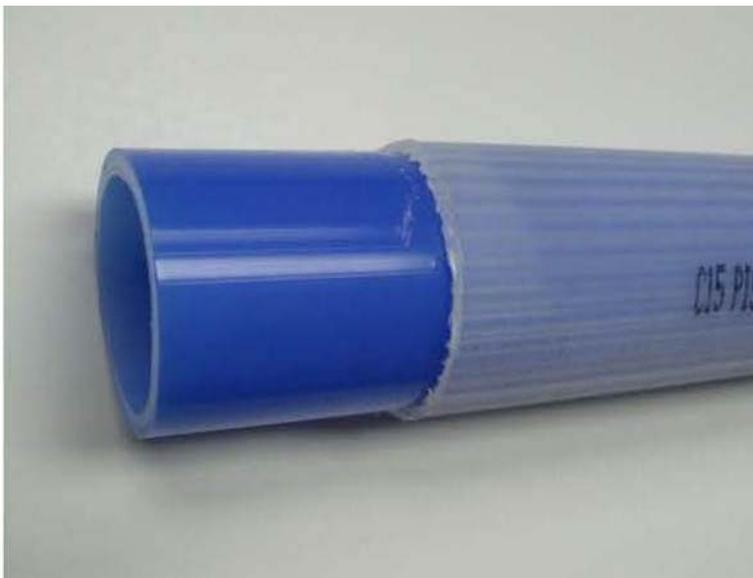

1st Gen. Pisces

First gen. OPW CP-15 and CP-20 pipe had either a blue or lavender polyethylene secondary and a black primary.

**ADHESIVE TO USE FOR THIS PIPE:
“ADHESIVE-PE-KIT”
(REQUIRES “MAN-GUN-FS-10” TO DISPENSE)**

2nd Gen. FlexWorks

Second gen. OPW FlexWorks pipe or Pisces II has a clear PVDF secondary and dark blue primary.

**EPOXY TO USE FOR THIS PIPE:
“EP100-RF”**

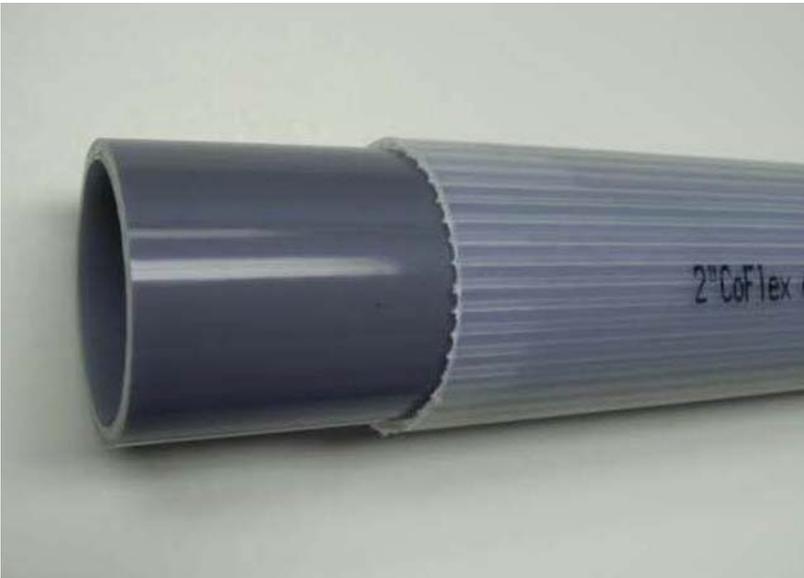

WESTERN FG PIPING

1st Gen. Co-Flex

First gen. Western FG pipe had a grey polyethylene secondary and a black primary.

ADHESIVE TO USE FOR THIS PIPE:
"ADHESIVE-PE-KIT"
(REQUIRES "MAN-GUN-FS-10" TO DISPENSE)

2nd Gen. Co-Flex

Second gen. Western FG pipe has a clear PVDF secondary and a grey primary.

EPOXY TO USE FOR THIS PIPE:
"EP100-RF"

ENVIRON PIPING

1st Gen. Geo-Flex D

First gen. Environ geo-flex pipe had a green polyethylene secondary and a white primary.

**ADHESIVE TO USE FOR THIS PIPE:
"ADHESIVE-PE-KIT"
(REQUIRES "MAN-GUN-FS-10" TO DISPENSE)**

2nd Gen. Geo-Flex Plus

Second gen. Environ geo-flex plus pipe had a clear PVDF secondary and a green primary.

**EPOXY TO USE FOR THIS PIPE:
"EP100-RF"**

NUPI PIPING

NUPI pipe has a black polyethylene secondary and a black primary. NUPI uses green electrofusion ends and couplers.

ADHESIVE TO USE FOR THIS PIPE:
"ADHESIVE-PE-KIT"
(REQUIRES "MAN-GUN-FS-10" TO DISPENSE)

UPP PIPING

UPP pipe is very similar to NUPI. It has a black or green polyethylene secondary and a black primary. UPP uses black electro fusion ends and couplers.

ADHESIVE TO USE FOR THIS PIPE:
"ADHESIVE-PE-KIT"
(REQUIRES "MAN-GUN-FS-10" TO DISPENSE)
