

Retrofit Fitting FLX Series

The FLX Series is used for internal, one-sided repairs to eliminate continuous leak points caused by degraded flexible entry boots in singlewall sumps. FLX fitting kits are universal for round or flat sump walls and the split design doesn't require excavation or disconnecting pipe. Models available for all common flex pipe and semi-rigid piping. Quality FRP construction provides long term compliance solutions.

- **No need to break concrete or disconnect pipe**
- **For flat or round walls**
- **Accommodates extreme angles**
- **3-year warranty**
- **Included FRP sleeve seals to plastic piping, plastic adhesive required**
- **UL2447 Listed**

REFERENCE FLEX PIPE ID CHART TO ASSIST IN DETERMINING THE FLEX PIPE AND SELECTING PROPER ADHESIVE TO BOND TO THE PIPE.
